SUMMARY

Information Technology graduate with experience in building responsive web applications using JavaScript, React.js, and APIs. Skilled in creating intuitive UIs and optimizing performance, eager to apply my expertise to solve technical challenges.

SKILLS

Frontend: JavaScript, HTML, CSS, React.js
Other Skills: Java, DBMS, OOPS
Tools: API integration, Responsive Web Design

INTERNSHIPS

Persistent Systems   May 2023 - July 2023

– Developed responsive UI components using **React.js**, **JavaScript**, **HTML**, and **CSS** for a web application.
– Integrated third-party APIs to display real-time data, improving user engagement by **20%**.
– Collaborated with the backend team to ensure seamless data flow and UI responsiveness.
– Optimized the frontend for performance, reducing page load time by **15%**.

Capabl   Jan 2023 - Mar 2023

– Built and maintained reusable frontend components using **React.js** and **Tailwind CSS**, ensuring consistent UI design across the application.
– Enhanced application performance by optimizing component rendering and lazy loading, improving speed by **25%**.
– Assisted with frontend testing and debugging to ensure a smooth user experience across different devices and browsers.

PROJECTS

Banana Speak App   Link — Code

A website that translates text from English to Minion/Banana language using an API. Built with **HTML**, **CSS**, and **JavaScript**.

Pokemon Search App   Link — Code

A responsive web app that allows users to search for Pokémon by name and view detailed information. Built using **React.js**, **CSS**, and an API.

EDUCATION

2020 - 2024   Bachelor's Degree at Shri Sant Gajanan Maharaj College of Engineering, Shegaon, MH (CGPA: 7.45/10.0)
